SIMTECH WINS \$12M SPECIAL OPERATIONS AIRCRAFT AIRWORTHINESS CONTRACT

Huntsville, AL, 1BOctober 17, 2019– Simulation Technologies, Inc. (SimTech) is pleased to announce it was awarded a five year, \$12M ceiling, “System Engineering Support to the Aviation Engineering Directorate (AED) Special Operations Aircraft Division (SOAD)” Task Order. SimTech and its teammates will provide support for airworthiness, maintenance and safety for helicopters that support Special Operations forces.

“SimTech is honored to have been selected to support AED and Special Operations forces as they continue their mission. We appreciate the support of our teammates in this effort.” SimTech CEO Annie Saylor said.

SimTech is a Huntsville-founded, woman-owned, small business that has a thirty-six year history of providing quality engineering and technical solutions to the U.S. Army.
