SIMTECH AWARDED SEAPORT NXG CONTRACT

Huntsville, AL, August 20, 2021– Simulation Technologies, Inc. (SimTech), a Huntsville, Ala. based, woman-owned small business, is pleased to announce that we have been named to the U.S. Navy’s SeaPort Next Generation Contract. This contract provides for Engineering and Program Management Services that span the entire spectrum of mission areas and technical capabilities supported by the Department of the Navy. This includes Engineering, Research and Development, and Modeling and Simulation support, which are key capability areas for SimTech.

“SimTech looks forward to building upon our thirty-eight years of providing these services to the Army to expand our scope of support to the Navy at locations throughout the U.S.,” SimTech CEO Annie Saylor said.

SimTech has consistently provided quality engineering and technical solutions by means of radar and multispectral simulations, systems and test engineering, logistics, cyber security, and programmatic support. SimTech is also an Express BPA holder and an OASIS prime contractor.
